a vigorous defence of a radical ontological pluralism that requires theism and is consistent with traditional christianity

H. G. Wells's hugely influential book tracks the exploits of a writer who struggles to survive an alien invasion of Victorian England after seeing the monstrous Martians firsthand. The narrator attempts to evade their destructive mechanized vehicles and must stay on the run to avoid detection as he meets other desperate humans. He becomes increasingly pessimistic about any chance of survival. The novel stands as a major milestone in science fiction literature, inspiring legions of subsequent writers and an endless array of hostile alien scenarios.
