christopher alexander s series of ground breaking books including a pattern language and the timeless way of building have pointed to fundamental truths of the way we build revealing what gives life and beauty and true functionality to our buildings and towns now in the nature of order alexander explores the properties of life itself highlighting a set of well defined structures present in all order and in all life from micro organisms and mountain ranges to good houses and vibrant communities in the phenomenon of life the first volume in this four volume masterwork alexander proposes a scientific view of the world in which all space matter has perceptible degrees of life and sets this understanding of order as an intellectual basis for a new architecture with this view as a foundation we can ask precise questions about what must be done to create more life in our world whether in a room a humble doorknob a neighbourhood or even in a vast region he introduces the concept of living structure basing it upon his theories of centers and of wholeness and defines the fifteen properties from which according to his observations all wholeness is built alexander argues that living structure is at once both personal and structural taken as a whole the four books create a sweeping new conception of the nature of things which is both objective and structural hence part of science and also personal in that it shows how and why things have the power to touch the human heart a step has been taken through which these two domains the domain of geometrical structure and the feeling it creates kept separate during four centuries of scientific thought from 1600 to 2000 have finally been united

the philosophy of life and welcome to paradise by a r pugh the philosophy of life and welcome to paradise is author a r pugh s attempt to promulgate superficial

sentimentalities let him introduce you to some of his monumental verbosities they are not related one to the other but just placed at random remember that you have a wonderful and powerful tool at your disposal and that tool is the mind s eye so let us start with the individual that you know best and that person is you ask yourself a few simple questions for example 1 what is my mission on this planet earth 2 the things that i choose to do are they right or are they wrong now have a good look at the lifestyle of other individuals what do you think go a step further and look at the events of the world in general why is there no peace among the nations of the world what do you think

nations around the world are experiencing a spectacular increase in longevity society as a whole is being challenged by issues arising from this revolution in longevity although the specter of the loneliness and existential suffering of older citizens is such that some people under the age of 65 find it difficult to conceive of a long term future persons over 85 have proven that aging does not necessarily preclude a healthy and productive life extraordinary progress in both curative and preventive medicine justifies optimism about the quality of life and state of well being that can be enjoyed even in great old age we should look to professionals in diverse fields to develop creative solutions to the inevitable issues that will arise with aging governments must prepare for the future health of their citizens by making long term investments to educate all sectors of society in the value of good nutrition exercise and lifestyles that enhance well being throughout life also governments should realize that the main cause of health care expenditure is serious illness which occurs in persons of all ages and not predominantly in older people early detection can help save lives as well health and longevity of life will ultimately end as a political issue what is needed is long term government investments necessary for a viable health policy the question arises will world leaders be able to commit to such a policy two major socioeconomic phenomena may have a regulating effect on this issue the first is the emergence of pressure groups that have come into being in response to a particular health issue such as aids the second is the emergence of ethics committees in developed nations that deal solely with health issues

This is likewise one of the factors by obtaining the soft documents of this **The**
