in opposition to an essentialist conceptualization the social construct of the human  
body in literature can be analyzed and described by means of effective methodologies  
that are based on discourse theory theory of cultural transmission and ecology system  
theory and media theory in this perspective the body is perceived as a complex  
arrangement of substantiation substitution and omission depending on demands  
expectations and prohibitions of the dominant discourse network the term body  
dialectics stands for the attempt to decipher and for a moment freeze the web of such  
discursive arrangements that constitute the fictitious notion of the body in the  
framework of a specific historic environment here in the age of goethe

the gripping stories of ordinary germans who lived through world war ii the holocaust  
and cold war partition but also recovery reunification and rehabilitation broken lives is  
a gripping account of ordinary germans who came of age under hitler and whose lives  
were scarred and sometimes destroyed by what they saw and did drawing on six  
dozen memoirs by germans born in the 1920s konrad jarausch chronicles the  
unforgettable stories of people who not only lived through the third reich world war ii  
the holocaust and cold war partition but also participated in germany s astonishing  
postwar recovery reunification and rehabilitation bringing together the voices of men  
and women perpetrators and victims broken lives offers new insights about persistent

questions why did so many germans support hitler through years of wartime sacrifice and nazi inhumanity how did they finally distance themselves from the nazi past and come to embrace human rights the result is a powerful portrait of the experiences of average germans who journeyed into through and out of the abyss of a dark century

on the murderous road to racial purity hitler encountered unexpected detours largely due to his own crazed views and inconsistent policies regarding jewish identity after centuries of jewish assimilation and intermarriage in german society he discovered that eliminating jews from the rest of the population was more difficult than he d anticipated as bryan rigg shows in this provocative new study nowhere was that heinous process more fraught with contradiction and confusion than in the german military contrary to conventional views rigg reveals that a startlingly large number of german military men were classified by the nazis as jews or partial jews mischlinge in the wake of racial laws first enacted in the mid 1930s rigg demonstrates that the actual number was much higher than previously thought perhaps as many as 150 000 men including decorated veterans and high ranking officers even generals and admirals as rigg fully documents for the first time a great many of these men did not even consider themselves jewish and had embraced the military as a way of life and as devoted patriots eager to serve a revived german nation in turn they had been embraced by the wehrmacht which prior to hitler had given little thought to the race of these men but which was now forced to look deeply into the ancestry of its soldiers the process of investigation and removal however was marred by a highly inconsistent application of nazi law numerous exemptions were made in order to allow a soldier to stay within the ranks or to spare a soldier s parent spouse or other relative from incarceration or far worse hitler s own signature can be found on many of these exemption orders but as the war dragged on nazi politics came to trump military logic even in the face of the wehrmacht s growing manpower needs closing legal loopholes and making it virtually impossible for these soldiers to escape the fate of millions of other victims of the third reich based on a deep and wide ranging research in archival and secondary sources as well as extensive interviews with more than four hundred mischlinge and their relatives rigg s study breaks truly new ground in a crowded field and shows from yet another angle the extremely flawed dishonest demeaning and tragic essence of hitler s rule
