the only comprehensive interviewing and counseling text grounded in a strong multi theoretical foundation structured around cacrep standards essential interviewing and counseling skills second edition uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies while continuing to disseminate counseling fundamentals the second edition focuses extensively on the acquisition of robust interviewing and counseling skills including special preparation for the initial assessment and counseling session it is also distinguished by its integration of cognitive behavioral and psychodynamic therapy approaches throughout the text emphasizes the importance of multicultural humility and a multicultural orientation to counseling including challenging students to examine their own backgrounds and

biases this latest edition also addresses key aspects of telehealth that have come to the fore during the covid pandemic the use of case examples throughout highlights multiple theoretical approaches and illustrates how to integrate a wide range of perspectives with an emphasis on counseling clients from diverse cultural backgrounds each chapter focuses on strategies for working with varied populations with an emphasis on intersectionality the authors consider many forms of diversity including race ethnicity immigration and country of origin along with age gender sexual orientation religion language and physical and cognitive abilities purchase includes digital access for use on most mobile devices or computers updates to the instructor s resources include an instructor s manual power points and a new test bank new to the second edition includes a new chapter on theoretical integration of approaches in counseling new discussions on how to successfully use telehealth for interviewing and counseling includes hot off the press boxes highlighting cutting edge research to inform strategies for counseling and professional development the entire text has been updated with the latest research and clinical references key features includes an emphasis on multicultural competence and humility throughout the text and features a spotlight on culture focusing on specific cultural considerations in each chapter provides a balanced integrated theoretical and practical approach to interviewing and counseling with a focus on skills development discusses evidence based practice assessment diagnosis and when how to end treatment teaches the fundamental skills of empathy active listening treatment planning and developing a strong therapeutic alliance with the client

this is the only comprehensive text to focus on the development of practical interviewing and counseling skills for masterís level mental health counseling students it is structured around the goals established by the cacrepís 2009 document on standards for mhc programs and uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies the benefits of integrating complementary therapy approaches according to the needs of the client and the importance of multicultural considerations in interviewing and counseling are consistent themes throughout the bookís hands on guidance regarding interviewing and counseling skills along with its embrace of different therapeutic modalities will enable students to learn how to provide care to clients that is tailored to their specific needs each chapter includes a highlighted section that draws studentsí attention to topics related to diversity and strategies for working with clients from a variety of populations issues related to race ethnicity immigration and country of origin are highlighted along with age gender sexual orientation religion language and physical and cognitive abilities the use of case examples from multiple theoretical orientations offers a realistic view of what actually occurs in a consulting room the book also addresses working with clients who have serious emotional or psychological difficulties and covers evidenced based practice assessment and diagnosis and when and how to terminate treatment an instructorís guide and powerpoint slides are also included key features provides a balanced integrated theoretical and practical approach to interviewing and counseling with a focus on skills development teaches the fundamental skills of empathy active listening treatment planning and developing a strong therapeutic alliance includes spotlight on culture sections with case studies to emphasize how diversity informs sensitive and effective psychotherapy provides exercises to help students discover their own blind spots in regard to diversity offers a realistic window into the profession through numerous case examples

interpersonal skills are essential in law practice and to the legal process lawyers must have fact gathering counseling and negotiating skills to provide effective representation in private decision making processes such as whether a litigation is worthwhile whether a dispute should be settled how a contract should be structured and so on in interviewing counseling and negotiating bastress and harbaugh argue that to best learn the interpersonal skills one must engage in two processes first one must know the theory behind the skills and their implementing techniques second one must practice using the theory and techniques drawing from other disciplines this text describes the considerable diversity in approaches to interviewing counseling and negotiating

this successful book continues to offer readers a practical introduction to human relations counseling the text reflects recent changes in managed health care okun s blend of hands on exercises examples and just the right amount of theory readers will learn to master the practical skills of interviewing and relationship building to help them become compassionate helpers

this book offers clear and direct answers to the questions most frequently asked by students and trainees learning how to talk to clients and extract critical data from them its development reflects the old adage that necessity is the mother of invention for many years the editors taught beginning level mental health clinicians they found however no text to be satisfactory including a number that they themselves were involved in producing some were too difficult some were too simplistic some were too doctrinaire still others had missing elements written in a reader friendly how to style the chapters in basic interviewing are not weighed down by references rather each contributor suggests readings for students and instructors who wish to pursue questions further after the initial overview chapter there are 12 chapters addressing the nuts and bolts concerns of all clinicians that can be particularly vexing for neophytes they cover a variety of issues from the most specific like how to begin and end interviews to the more general like how to build rapport and identify targets for treatment throughout rich clinical illustrations facilitate the pragmatic application of fundamental principles beginning graduate students in counseling and clinical psychology social work and other allied mental health fields as well as psychiatric trainees will find this text to be an indispensable companion

principles and procedures this time tested book describes the fundamentals of effective interviewing and counseling in speech language pathology and audiology the basic principles and procedures of interviewing and counseling and the specific techniques and suggestions in this book are applicable to children and adults to clients and caregivers and to all settings in which clinicians provide service this third edition has added more than 100 new references 90 of which were published between 2003 and 2004 practical case studies were also added along with examples to help readers with clinical application of the information professionals addressing communicative disorders have long recognized the significance of effective interviewing and counseling in clinical situations yet as many clinicians have lamented for years interviewing and counseling are neglected areas within most educational programs graduates go into workplaces with neither coursework nor effective practicum experiences in interviewing and counseling too often clinicians must learn to interview and counsel on their own on the fly while on the job this is a disservice to clients and is hard on the clinician also such a method of learning does not

necessarily mean that the most effective methods of interviewing and counseling are discovered along the way this book addresses those concerns by providing a comprehensive source for effective counseling and interviewing techniques anyone who works with persons with communicative disorders will benefit from this thorough book professionals and students alike will find this resource full of practical pertinent topics it treats a variety of situations clinicians face and describes methods and techniques applicable to students as well as professionals

in this edition of their best selling text allen and mary bradford ivey provide a practical approach that shows beginning counselors and therapists how to conduct effective interviews using the iveys original microskills approach students learn to master basic listening and influencing skills how to conduct a full interview using only listening skills and how to adapt microskills and interviewing plans to meet the needs of multicultural clients each chapter includes multicultural commentaries and lively case studies that remind students that different cultural groups think of the helping process in very different ways and that issues of gender language religion physical disability affectional orientation and experience with life trauma such as child abuse rape the vietnam war are factors that should be considered during the counseling interview

this newly updated introductory textbook is designed to help students of psychotherapy and counseling at all levels build the foundational strategies skills and tools essential for engaging clients in a therapeutic interview developing an specialist understanding of the varying formats and diverse settings in which these interviews occur in this second edition michael d reiter interweaves a new framework the issue cycle to help students build from start to finish a foundational template for engaging clients regardless of therapeutic model with every chapter being revised as well as including a new chapter on the ethical relationship that occurs in psychotherapy the book begins with laying down the context of therapy such as its definitions motivations and ethics before moving on to developing students skills of therapy including conversing reflecting goal setting terminating sessions and how to avoid being an ineffective therapist in part 3 and 4 chapters cover the contexts of clients and therapy such as working with children families and groups and includes a special revised focus on multicultural interviewing and effective online counseling including several interactive elements such as case scenarios and application exercises an instructor s manual with a sample syllabus essay questions and more students can uniquely see theory in action practical and accessible this textbook shall be essential reading for students of psychotherapy and counseling as well as training family therapists social workers and other mental health professionals who work directly with those dealing with psychological behavioral and emotional difficulties

master interviewing skills with intentional interviewing and counseling facilitating client development in a multicultural society 8th edition this book gives you the tools to adapt your skills to address both individual and multicultural uniqueness conduct interviews using five different theoretical approaches and begin developing a personalized style and theory of interviewing and counseling that matches your own aptitudes and affinities case studies sample interviews and a portfolio of competencies are just a few of the many tools that will help you master the material and become a better listener

this book specifically designed to meet the needs of those teaching and learning interviewing and diagnostic skills in clinical counseling and school psychology counselor education and other programs preparing mental health professionals offers a rich array of practical hands on class and workshop tested role playing and didactic exercises the authors who bring to their task a combined 31 years of practice and 24 years of teaching these skills present 20 complex profiles of a broad range of clients adults teens and children differing in ethnicity gender religion socioeconomic status presenting problems and problem severity the profiles provide students trainees with a wealth of information about each client s feelings thoughts actions and relationship patterns on which to draw as they proceed through the different phases of the intake initial interview one playing the client and one the interviewer each client profile is followed by exercises which can also be assigned to students not participating in role playing who have simply read the profile the profiles are detailed enough to support a focus on whatever interviewing skills an instructor particularly values however the exercises highlight attending asking open and closed questions engaging in reflective listening responding to nonverbal behavior making empathetic comments summarizing redirecting supportively confronting and commenting on process the authors approach to dsm iv diagnoses encourages students to develop their diagnostic choices from axis i to axis v and then thoughtfully review them in reverse order from axis v to axis i to ensure that the impacts of individual situational and biological factors are all accurately reflected in the final diagnoses throughout the authors emphasize the importance of understanding diversity and respecting the client s perceptions and of reflecting on the ways in which the interviewer s own identity influences both the process of interviewing and that of diagnosis interviewing and diagnostic exercises for clinical and counseling skills building will be welcomed as a invaluable new resource by instructors students and trainees alike

this book supports and develops the communication and interviewing skills of professional practitioners and student practitioners in social work counselling and the health professions combining work on personal and social constructs the search for meaning and ecological theory this book both provides an integrated discussion of practice and presents a balanced approach when discussing psychological biological and social influences on individual well being furthermore it emphasises the influence of social contexts on behaviour and well being as well as valuing and encouraging the application of practitioners prior experience and learning apel to new knowledge and understanding containing a range of practice examples to stimulate learning this book promotes a collaboration between the professions and welcomes the contributions of people who use services patients and clients communication and interviewing skills for practice in social work counselling and the health professions will be of interest to all undergraduate and postgraduate social work students as well as new and experienced professional health care practitioners

this is the only comprehensive text to focus on the development of practical interviewing and counseling skills for master s level mental health counseling students it is structured around the goals established by the cacrep s 2009 document on standards for mhc programs and uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies the text emphasizes the importance of multicultural facets of interviewing and counseling throughout challenging students to examine their own backgrounds and biases as they develop profe

the classic text presenting proven practical strategies for conducting effective interviews clinical interviewing now in its fifth edition guides clinicians through elementary listening skills onward to more advanced complex clinical assessment processes such as intake interviewing mental status examination and suicide assessment clinical interviewing has been updated with the latest content from the dsm 5 including defining psychological and emotional disorders chapter 6 an overview of the interview process diagnostic impressions chapter 7 intake interviewing and report writing assessing for depression chapter 9 suicide assessment history and evolution of the dsm defining mental disorders specific diagnostic criteria diagnostic assessment diagnostic interviewing and using diagnostic checklists chapter 10 diagnosis and treatment planning violence assessment chapter 12 challenging clients and demanding situations featuring an accompanying dvd with real life scenarios of actual counselors and clients demonstrating techniques for effective clinical interviews the new edition presents a greater emphasis on collaborative goal setting and the client as expert new discussion on multicultural orientation and multicultural competency non face to face assessment and interviewing including a structured protocol via email telephone texting videoconferencing skype instant messaging and online chatting an increased focus on case formulation and treatment planning
