the australian army from whitlam to howard is the first critical examination of australia s post vietnam military operations spanning the 35 years between the election of gough whitlam and the defeat of john howard john blaxland explores the casualty cringe felt by political leaders following the war and how this impacted subsequent operations he contends that the australian army s rehabilitation involved common individual and collective training and reaffirmation of the army s regimental and corps identities he shows how the army regained its confidence to play leading roles in east timor bougainville and the solomon islands and to contribute to combat operations further afield at a time when the australian army s future strategic role is the subject of much debate and as the asian century gathers pace and commitment in afghanistan draws to an end this work is essential reading for anyone interested in understanding the modern context of australia s military land force

plant nutrition from genetic engineering to field practice the 12th international colloquium on plant nutrition is the latest in a series which began in 1954 early meetings were mainly concerned with the practical problems of soil fertility with soil assessment fertilizer requirements and

methods of analysis as the colloquia have progressed the emphasis has slowly changed the practical problems are still important but there is increasing emphasis on plant physiology plant biochemistry membrane biochemistry and even on the chemistry of genes which control the proteins which transfer nutrient ions to the inside of cells the meetings therefore provide a valuable opportunity for each half of the science of plant nutrition to interact with and learn from the other half this volume begins with five papers which review current knowledge in important fields the rhizosphere molecular biology electron microscopy location and function of elements in vivo and modelling nutrient responses in the field these themes are continued in groups of shorter papers which follow in addition there are sections on nutrient dynamics and partitioning diagnostic techniques plant survival strategies mycorrhizas and on nutrients such as p n s k ca mg and micronutrients a large section is devoted specifically to boron reflecting the considerable current interest in this element in total there are 177 refereed papers providing both a broad overview and a detailed picture of the latest developments in pure and applied plant nutrition
