

UHS7

Infrared User Handset

Overview

The UHS7 is a compact infrared handset used for:

- Selecting scenes.
- Raising and lowering the scene light levels.
- Turning the lights on or off.

Pointing the Handset

You must point the handset directly at the device that you want to control.

Care and maintenance

Replacing the Battery

The battery compartment is located on the bottom edge of the handset.

Release the retaining lug to allow the battery holder to be slid out.

Lift out the battery from the holder and insert a replacement battery (type CR2025 or equivalent), ensuring correct polarity.

Slide the holder back into the handset, ensuring that the retaining lug clicks into place.

Cleaning the Handset

The exterior of the handset can be cleaned by using a damp cloth. Stubborn marks may be removed by using a mild detergent.

Accessing the internal battery
